

# Increasing Production of Critical Ventilators

**A Kelly client is expanding their team to meet demand for anesthesia machines, critical care ventilators, and vaporizers.**

A multinational healthcare manufacturer has stepped up during the global pandemic by quickly increasing production of critical equipment for use across the country.

To support this vital work, our client asked Kelly to act as the sole provider for 36 direct-hire roles. Thanks to our hardworking team, we were able to provide 40 qualified candidates in just one week.

**Thank you** to all the amazing members of the Kelly community – individuals and organizations – who are doing their part in the battle against this global crisis.

**#InThisTogether**
