

# Helping Patients and Healthcare Workers to Communicate in a Crisis

**A KellyOCG client specializing in interpretation services has expanded their team to ensure that patients can understand their medical treatment and connect with medical services during the Covid-19 pandemic.**

As many organizations experience a scaling-down of operations, one KellyOCG client has seen demand rapidly increase. This language interpretation business has expanded quickly to ensure they can continue to provide much-needed live audio interpretation services.

To ensure that this client can continue to service their healthcare partners, KellyOCG helped them to recruit 82 team members in just 3 days.

**Thank you** to all the amazing members of the Kelly community - individuals and organizations - who are doing their part in the battle against this global crisis.

**#InThisTogether**
