

Joel Leege

**President
Kelly Science, Engineering, Technology & Telecom**

[Joel Leege](#) is President of Kelly Science, Engineering, Technology & Telecom, an operating segment of leading workforce strategy and solutions provider Kelly that delivers staffing and consulting services to leading organizations in North America. In this role, Joel is responsible for accelerating the profitable growth of Kelly's specialty workforce solutions across the life sciences, engineering, technology, telecom, and government solutions verticals.

Joel is an accomplished executive with nearly three decades of experience in staffing, talent solutions, and managed services. Prior to joining Kelly, he served as President and Chief Operating Officer of Red Oak Technologies, a boutique IT talent solutions firm, where he led high-impact technology services and talent solutions delivery to customers globally.

Joel also spent seven years at Randstad Digital, first as Executive Vice President of Growth, Strategy & Development, and later as Chief Strategy Officer. During his tenure, he led the implementation of organic and inorganic growth initiatives that helped transform the business into a global technology services firm with revenues exceeding \$3 billion.

Throughout his career, Joel has consistently emphasized strategic planning, mergers and acquisitions, and operational optimization, focusing on both organic and inorganic growth. He has held leadership positions at several notable firms, including Prosum, Fahrenheit IT, and Kforce, playing critical roles in market expansions, improving financial performance, and restructuring operations. Joel's expertise in sales, recruitment, and service delivery, combined with his ability to scale teams and drive profitability, has established him as a key figure in both publicly traded and private equity-backed organizations.

In addition to his professional accomplishments, Joel actively contributes to the industry as chair of the board of directors for TechServe Alliance and a frequent guest speaker at industry conferences. He holds a Bachelor of Arts in Communication Studies from the University of Iowa, a Master's in Human Resources and Labor Relations from Michigan State University, and a Certificate in Mergers & Acquisitions from the London Business School.
